## CHAPTER-I

### 1. INTRODUCTION

#### 1.1 Background

Agriculture is the backbone of the Nepalese economy which alone contributes about 38 percent of the Gross Domestic Product (GDP), and plays the lead role in the economic development of the country. In Nepal, agriculture is the main source of employment and livelihood where 65.6 percent of the people are still engaged in agriculture. However, due to the lack of modernization and commercialization in agriculture, farmers could not benefited as per their expectation.

The Government of Nepal (GON) and the Asian Development Bank (ADB/M) agreed to launch Commercial Agriculture Development Project (CADP) on 23 February, 2006. The project is designed to efficiently deliver development to poor and socially excluded people, through equitable and sustainable commercialization of agriculture. The project will directly generate employment opportunities to poor and marginal farmers and landless people by promoting high value crops (HVC) and their marketing, transporting from the point of production to storage and processing centers. CADP will also assist small scale community based market infrastructure development.

This project is implemented in 11 districts of Eastern Development Region (EDR) including 5 hill districts (Dhankuta, Ilam, Panchthar, Terahthum, and Udayapur), 5 Terai districts (Jhapa, Morang, Sunsari, Siraha, and Saptari) and one mountain district (Taplejung). The project beneficiaries will be the farmers (including subsistence, semi-commercial, commercial and women farmers) growing or interested in growing HVC such vegetables, fruits, and spices; and entrepreneurs located in the identified high potential areas of EDR.

Major outputs of the Commercial Agriculture Project will be increased public private investment, inclusion of poor and semi-commercial stakeholders in commercial agriculture, improved market information system and enhanced capacity of project partners in supporting farmers. The project will also cover disadvantaged and vulnerable people in EDR who have been excluded from the development process. The landless will be empowered through training to become employed in market-chain activities.

Mostly, farmers and traders lack of knowledge and skills about production and marketing technology of high value crops (HVC), transportation and marketing infrastructures. Despite of these constraints, EDR has extreme variation in the soil conditions, elevation, and temperature in the project districts, which provide greater scope for the production and marketing of wide range of agricultural commodities including fruits, vegetables and cereals.

The Commercial Agriculture Development Project is market oriented and demand driven. The project aims to accelerate the process of agriculture commercialization in EDR and help to increase employment opportunities in rural areas, value addition of agriculture products and rural income.

**Objectives of the District Orientation Program:**

- To illustrate the overview of the project among stakeholders.
- To introduce line-agencies and stakeholders about project's rationale, objectives, expected output, opportunities, and constraints .
- To create awareness about roles and responsibilities of partners (CADP, CAA and JFPR) and other stakeholders.

## CHAPTER – II

### Summary of Presentation

Karki, Yogendra Kumar (Project Manager) CADP: At a Glance, May 8, 2008

Mr. Karki, in his presentation, focused on introduction, overall objective, project command districts, proposed financing plan, expected impacts and outcomes, project components, value chain model and project implementation arrangement system of CADP.

He also explained that the project is under ADB grant, implemented by Department of Agriculture (DOA) for six years period. (July, 2007 to December, 2012) .The overall goal of the project is sustainably increasing the level of commercialization of agriculture in EDR. The specific objective is to reduce poverty in rural communities in 11 project districts through equitable and commercialization of agriculture.

The project investment cost is estimated as US \$ 24 million, out of which, the contribution of ADB, Nepal Govt., CAA, DDC, and FC is 18, 0.8, 4, 0.4, 0.5 million US \$ respectively. The expected impacts and outcomes of this project will be improved efficiency of marketing and processing of HVCs (vegetables, fruits, tea, and spices).

For the implementation of the project, **Project Management Unit** is established in Biratnagar, which prepares project annual work plan and project progress report; recruits the consultants and rewards the procurement contracts; supervises the project activities and performance of the partner NGOs and service providers and carries out the M& E of the project activities.

#### **The major components of the project are:**

1. Agriculture investment and management.
2. Inclusive development of stakeholders.
3. Market information dissemination.
4. Project partners capacity enhancement.
5. Project implementation support.

The MOAC is the executive agency, the CAA is the implementing agency for component -1 (commercial agriculture investment & management), and the DOA is implementing agency for the components 2, 3, 4, and 5.

Mr. Karki emphasized that, for efficient implementation of the program, each line–agency and other stakeholders should work as partners with beneficiaries (Farmers, Traders, and Processors). He concluded that "**The success of the project will depend upon level of the co-ordination among stakeholders, for which; regular interaction to understand each other roles, and responsibilities is must .**"

Karna, Shyam Bhushan, (Branch Manager, CAA, Siraha); Commercial Agriculture Alliance: A Brief Introduction, May 8, 2008.

Mr. Karna, in his presentation stated about, the introduction of Commercial Agriculture Alliance (CAA), its objectives, command areas, membership, Board of Directors; management of CAF, main tasks, procedure to be followed for submitting the application and approval of grant and roles and responsibilities of stakeholders and future course of actions of CAA.

CAA is not-for-Profit Company established in 29 September, 2006 for the implementation of **Agriculture Investment and Management** component-1 of CADP. The objectives of CAA are: Promoting commercial agriculture by developing an alliance between the commercial agricultural stakeholders; manage CAF; educate members about market linkage on production; transferring knowledge and skill about agricultural production technology and marketing to farmers and others stakeholders directly involved in the agriculture business; conducting awareness program and helping its members in protecting the intellectual property rights.

CAA will have a cost sharing Commercial Agriculture Fund (CAF) of US\$13.3 million. CAA will provide grant to its members for the development of community based infrastructures such as collection centers, suspension bridges, ropeways, farm to market road improvement, cold stores and so on. It will also provide fund for the non-infrastructure activities such as, production and market promotion of High Value Crops (HVCs) in the project area. The fund for community based infrastructures is mobilized through District Development Committee and for non-infrastructure activities through farmers groups, agricultural cooperatives, processors and traders of agricultural commodities. A maximum of \$ 80,000 will be provided for each community-based market infrastructure intervention and a maximum of \$ 20,000 for each non-infrastructure investment. The allocation of CAF to specific districts will vary according to need. Each general member can obtain a maximum of \$ 40,000 on cumulative basis, and each DDC a maximum of \$ 320,000 on cumulative basis.

Commercial Agriculture Alliance will implement its program in 11 districts of Eastern Development Region. CAA will have two types of members i.e. general and nominated. General members comprise farmer's groups, cooperatives, traders and processors whereas representatives from Ministry of Agriculture and Cooperatives, Ministry of Local Development, District Development Committee of 11 project districts, and Agro Enterprise Centre of Federation of Nepalese Chamber of Commerce and Industries(FNCCI) are the nominated members of CAA. CAA will establish its central office at Biratnagar and branch offices at district headquarter of 11 project districts. The stakeholders should play their roles in creating awareness at local level, selection of appropriate projects, recommendation of grant for feasible projects and regular monitoring and evaluation of the projects.

**The CAA is established as a not for - profit company with definite objectives and well defined roles and responsibilities. Commercial Agriculture Fund that will have to manage by CAA, will be allocated for the commercialization of agriculture in the Eastern Development Region.**

Mr. Mahaseth, Jagannath,(Regional Director), Agriculture Development in EDR- At a Glance, May 8, 2008.

Mr. Mahaseth, in his presentation highlighted the potential and constraints of commercialization in EDR and gave a overview about pocket areas, projects implementing in EDR, agricultural statistics, food balance sheet, agriculture program in EDR, potential crops according to geographical region, market infra-structures and National Mission for different crops in different districts.

#### **Projects in EDR:**

- Eastern Hill Development Project: Solukhumbu, Khotang, Bhojpur, Okhaldhunga.
- APPSP: Siraha, Udayapur, Okhaldhunga.
- Ultra Poor Project: Terahthum, Taplejung.

### Market Infra-structures:

• Collection centers	-	37
• Wholesale markets	-	8
• Hat bazaar	-	577
• Cold stores	-	8
• Cellar stores	-	8
• Rustics stores	-	23

### Potential Crops in EDR

• Cardamom	-	Taplejung, Panchthar, Ilam, Sankhuwasabha, Terahthum, and Bhojpur
• Off-season vegetables	-	Dhankuta, Ilam, Panchthar, Terahthum, Sunsari, and Morang.
• Citrus	-	Dhankuta, Ilam, and Panchthar
• Areca nut and Black pepper	-	Jhapa
• Banana	-	Sunsari, Morang, and Jhapa
• Tea	-	Jhapa, Ilam, Panchthar, and Dhankuta
• Ginger	-	Dhankuta, Ilam, Terahthum and Panchthar
• Jute	-	Morang, Sunsari, and Jhapa.

### National Mission program in EDR:

• Mission Fish	-	Siraha, Saptari, Sunsari, and Morang
• Mission Onion	-	Siraha, and Saptari
• Mission Citrus	-	Dhankuta, Ilam, and Panchthar

Mr. Mahaseth expressed his views on project activities and co-ordination among different stakeholder in project district. Project is mainly concentrated in developing the small infrastructures such as collection centers, ropeways, suspension bridges, cold stores and improvement of farm to market link road. He added that the beauty of this project is to promote selected HVC in potential area of the project district. He added that due to availability of suitable climatic condition and socio-economic environment, EDR has greater scope for the commercialization of agriculture.

He ensured that he will be fully devoted to provide support in every step of project implementation. He also hoped that DADO of the project districts will provide required support during project implementation. RD suggested that the success of the project depends upon the co-ordination among different agencies involved in CADP.

Mr. Shree Narayan Sharma, SADO, DADO, Siraha : Exsiting Situation, Problems and Prospect of Commercial Agriculture in Siraha District, May 8, 2008.

Mr. Sharma, in his presentation mainly focused on brief introduction district, present infrastructure development and present status and potentiality of high value crops in Siraha district.

**Potential High Value Crop :**

- § Mango
- § Onion
- § Potato
- § Off-Seasonal Vegetable

**Brief Introduction of district :****Background:**

- Siraha district is one of the most potential district for commercial agriculture.
- The population of the district is 623461
- Total area 122796.9 hectare
- Total cultivated area - 48883.4 ha.

**Existing Situation :**
